Javadoc Documentation

- Javadoc comments
  - Start with: **/****
  - End with: ***/**
- Special "tags" (**@param**, **@result**, etc.)

```
/**
 * Sets the number of units earned.
 * @param units The number of units earned
 */
public void setUnits(double units) {
    unitsEarned = units;
}
```

Javadoc for ACM Libraries

- Javadoc for ACM libraries available at:

    http://jtf.acm.org/javadoc/student/

- Let's take a look at Javadoc for RandomGenerator

    RandomGenerator
